

IdeaPaint™ PRO Specification Sheet

a single coat, roller applied dry erase coating that turns any smooth surface into a high-performance dry-erase surface

kit includes:	2 parts IdeaPaint™ (can of THIS and can of THAT) 9" foam roller cover stir stick can opener installation instructions "ready for use on " sign
coverage:	each kit will cover 50 square feet of surface area
attributes:	highly durable highest performing dry erase surface easy to apply safe to use savings vs. traditional dry erase boards compliant with California 01350
application:	can be applied to drywall, chalkboard, marker board, blue board, metal, glass, and laminate surfaces
colors available:	white, white sand, light gray, off-white, light beige, and custom colors (96 kit minimum)
primer:	use Glidden™ Gripper, Kilz® Premium, or other PVA, stain blocking, non-tinted primer
pot life:	one hour
VOC level:	320 g/l
cure time:	surface can be used 7 days after installation
markers:	use any standard dry erase marker; for best performance, use EXPO regular ("bold") dry-erase markers. low odor markers should be avoided as they present performance challenges on all dry erase surfaces and may cause some ghosting depending on the brand and color used
cleaning:	daily erasing and cleaning should be done with a standard dry-erase eraser, dry cotton cloth, or micro-fiber towel. clean erasers should be used. for periodic and more thorough cleaning use a clean damp cloth or dry-erase cleaner or wipes
shelf life:	1.5 years not mixed and properly stored
warranty:	lifetime limited warranty
manufacturer:	IdeaPaint, 290 Eliot Street 2 nd floor, Ashland, MA 01721 617-714-1050
